

British Law Centre

Are you fluent in English
but want to improve
your English legal language?

Do you want to find out more
about the common law and
how common lawyers think?

And how judges create law?

Interested in EU law and want
to see the common law
perspective?

**Then come and study at the
British Law Centre in
Brno
at Masaryk University,
Faculty of Law**

JACQUES & SNOOK

The BLC offers a completely different perspective on teaching and studying law. There are no to-memorize-and-forget exams based on repeating statutory provisions but rather open-book and usually take-home assignments which predominantly test a student's ability to reason and apply the law to practical cases. And this is how every lawyer's bread and butter work looks nowadays, no matter whether in a law firm, in a court or within government.

My core legal skills of legal research, reasoning and drafting were shaped by the tutors at the BLC.'

What our alumni say.....

For a student in 1990s Prague Law Faculty, bored stiff by tedious ex-cathedra lectures, presenting law dogmatically as a body of rules to be memorized, the Diploma in English and EU Law offered an exciting and refreshing window into a very different legal world, way of thinking, and understanding the law. For me personally, that was the moment when law started being fun. Add to that the opportunity to learn and perfect your legal English, a must in any international legal work done today, and you have the recipe for a successful career in law, in your home country or beyond
